SKILLS

Language | JavaScript

Framework | React.js, Node.js, Express.js

Other Technologies | MongoDB, Git, Docker, Ethereum, Solidity, Wordpress, Cryptography

WORK EXPERIENCE

LinkTech IT | Dhaka, Bangladesh— Internship

November 2022 - March 2023

Work area:

- Worked as a wordpress developer in multiple projects for different clients in Bangladesh.
- Actively contributing to requirement analysis, development and production deployment phases of a feature.
- Regularly performing different technical spikes to make the systems better performant and manageable.

OPEN SOURCE WORKS

Ecommerce_App (*MERN*) – The process of building a responsive and dynamic user interface with React, creating a back-end API with Express and Node.js and storing data in a NoSQL database with MongoDB, adding an Admin dashboard where CRUD the products and status the orders.   [Link]

RentCar (React) –The process of building a responsive and dynamic user interface with React.   [Link]

Broadband_Internet (*Wordpress*) – It's a broadband internet connection website that's built with Elementor, themes and plugins.   [Link]

Tea_Order (*Solidity*) – This project demonstrates a basic HardHat use case. It comes with a sample contract, a test for that contract and a script that deploys that contract using Solidity, Ether.js, Metamask and React JS.   [Link]

EDUCATION

American International University Of Bangladesh (AIUB) — BSc. in Computer Science & Engineering, 2022
CGPA:

CERTIFICATION

HackerRank [Link]

101 Blockchains [Link]

RESEARCH

Classification of skin cancer Images Using CNN [Link]

COURSEWORK

Data Structure And Algorithms

Introduction To Database

Computer Network

Web Technologies

Data Mining

Software Quality And Testing

Operating Systems

Artificial Intelligence

Functional Programming

Computer Graphics

EXTRACURRICULAR
